TIMELESS
EXCITEMENT

Protagonists of over thirty years of Ferrari racing history intermingling on track with the current leading lights from specific GT championships: this is the spirit that imbues Club Competizioni GT, the Prancing Horse initiative dedicated to the most captivating and most-garlanded GT race cars from recent decades.
The programme allows the owners of these exclusive cars, manufactured since 1989, to take part in events held on some of the world's most fascinating, iconic circuits. It is a unique opportunity to take out on track pearls from Ferrari's past that have helped fill Prancing Horse's legendary honours list.

A NEW DEFINITION OF CLUB

Club Competizioni GT offers owners of eligible GT racing cars the chance to join an exclusive group and share their passion for the Maranello marque on the circuit. It offers the unique prospect of driving one's own car in a completely safe racing environment, thanks to the support and valuable advice offered by official Competizioni GT drivers. An unmatched thrills both on and off the track as only Ferrari is capable of providing. A world in which the customer is the focal point thanks to a myriad of exclusive on-demand services, including sessions with a specially-designated professional driver.

NEW FRONTIERS, MORE FUN

To meet the demands of its customers even more effectively, Ferrari has enriched its range of Club Competizioni GT events with the creation of regional editions covering the American, Asian and European areas, alongside the international programme.
The regional events allow participants to take full advantage of additional days on the circuits while retaining all the special on-track support services. New dates, new opportunities, new thrills.
