CORSO PILOTA FERRARI

90 legendary years in a series of exclusive driving courses

INTRODUCTION

In 1993 Ferrari established a driving school offering its customers structured teaching and levels of instruction which perfectly match participants' experience and wide range of needs. The two basic principles of Corso Pilota are its state-of-the-art learning technologies and its highly qualified instructors: video and data acquisition systems enhance teaching activities as at the end of each session instructors analyse the collected data with the participants to accurately monitor development. All instructors have previously been professional drivers and possess excellent communication skills and a good command of the English language. he school aims to give participants the tools to best appreciate the technical aspects of Ferrari cars in their natural habitat: the racetrack. Indeed, the cars used in the courses are the sportiest ones in the Ferrari range: the 296GTB, the SF90 Stradale, in all levels of the Corso, and, last but not least, the 488 Challenge Evo, raced in the Ferrari Challenge, Ferrari's very own single-brand GT Championship arrived at its 30th season.

90 legendary years in a series of exclusive driving courses

HOW THE COURSES ARE STRUCTURED

The Corso Pilota Ferrari skilfully blends lifestyle and racing elements to offer participants four very different experiences in terms of difficulty and intensity: the Corso Pilota Sport, Corso Pilota Avanzato, Corso Pilota Evoluzione and Corso Pilota Challenge. Participants begin with the Corso Pilota Sport and then gradually progress to the most advanced level, the Corso Pilota Challenge, with each course being a prerequisite for the following one. To satisfy the needs of each customer, Ferrari has also introduced three additional programmes: the Corso Limited Edition, Pilota Ferrari Personal Coaching Programme and Corso Pilota Around the World. All courses include class-based lectures, practical activities on the track and review of video and telemetric data. Moreover, each course includes compelling activities created by Ferrari staff to ensure that participants' guests are also kept fully entertained, making the whole experience unforgettable for all, whether on or off the track.

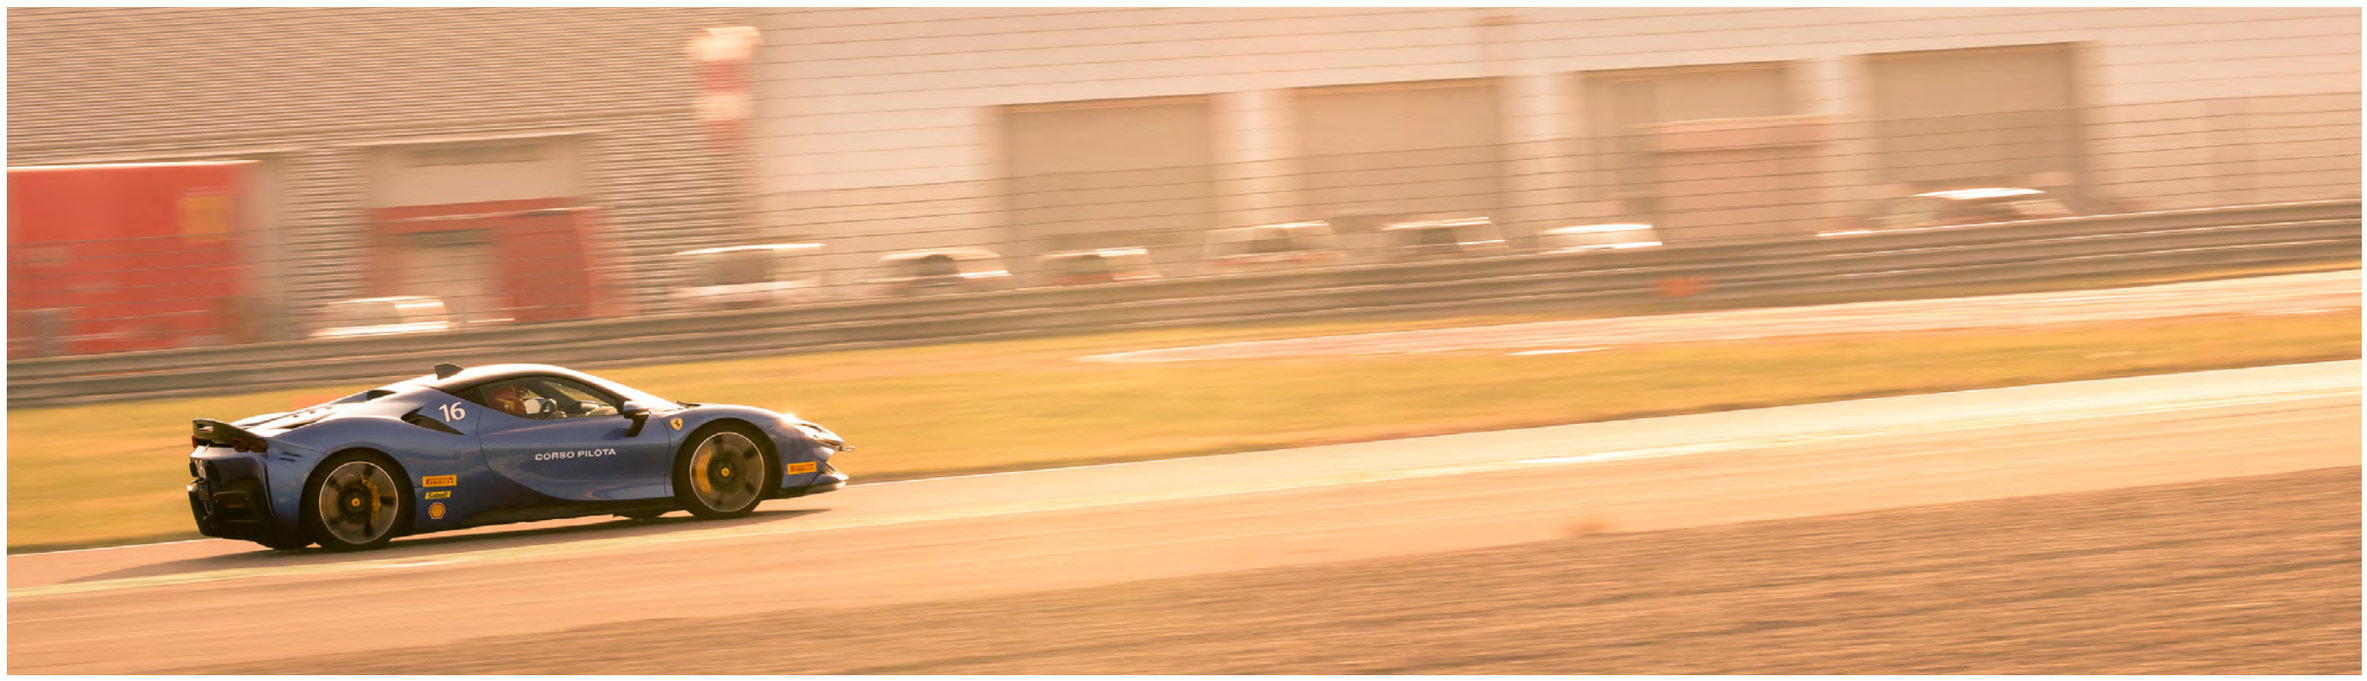

CORSO PILOTA SPORT

FIRST EMOTIONS ON THE TRACK

The programme's introductory course takes place in an iconic Ferrari location, the Fiorano track (Modena). Participants are firstly given an introduction to sport driving techniques and then try their hand at the wheel of a Ferrari 296GTB, with the opportunity to drive the impressive SF90 Stradale. An instructor sits in the car with the participant, providing useful advice to progressively improve performance lap after lap. The course's dynamic part includes track driving sessions and car control practice on low-grip surfaces.

This is the chance for Corso Pilota participants to drive solo for the first time. The course culminates in a double session on the track with the 488 Challenge Evo, the closed-wheel racing car driven in the Ferrari single-make series.
