

MUSEO FERRARI MARANELLO

PIT-STOP EXPERIENCE

"Pit-Stop" is an experience reserved for those guests of the Museo Ferrari who want to test themselves in a timed tire change simulation.

An action set is installed at the end of the exhibition area: it reproduces all details of the pit-stop in a modern race track, not only with the presence of a true Formula 1 racer, but also by re-creating its atmosphere with original tools of the "trade" like tires and pneumatic wrenches.

Guests will access the set following the operator's instructions, which will direct them in two activities:

- the simulation of a timed tire change, during which guests will have to test themselves on the replacement of the two front wheels of the racer (3 people per wheel);
- being taken a snapshot in order to receive a photo souvenir from the Museo Ferrari.

The activity is available upon reservation during the regular opening times of the museum. A minimum 5-working days advance notice is required to prepare the area and the specific staff.
