

A PROJECT TO CREATE A CENTRE OF HIGHER TECHNICAL EDUCATION IN MARANELLO GETS UNDERWAY

MEMORANDUM OF UNDERSTANDING SIGNED BETWEEN FERRARI, FONDAZIONE AGNELLI AND LOCAL INSTITUTIONS

Maranello, 17 July 2024 - A new centre of higher technical education will be created in Maranello, and it is the subject of a memorandum of understanding signed by Ferrari, the Agnelli Foundation, the Municipality of Maranello, the Province of Modena and the Emilia-Romagna Region.

The project represents an important step forward in Ferrari's historic commitment to excellence in education and training. The new centre will aim to prepare a new generation of highly specialised professionals for work in the automotive sector, contributing to the innovation of the entire industry at national and international level.

Over the next few months, with collaboration between private subjects, public bodies and local administrations, the project will be developed in all aspects, from urban planning and the building process for the construction of the new facilities to the definition of the training courses that will promote the development of high-level technical skills.
