TITANIUM COLORED GRILL KIT

TITANIUM COLORED GRILL KIT

458
ITALIA

For maximum visible impact, a new kit is now available replacing all the grills on the vehicle with parts in a titanium color finish to complement other products created by Ferrari Genuine such as the tailpipe tips and wheel studs.

The new titanium color finish option is an extremely complex effect to achieve: the superlative quality finish of the end product is only achievable with an exclusive painting process - the only process that ensures that the finished component will meet Ferrari's stringent reliability standards.
