FERRARI GENUINE CARBON FIBER SPLITTERS

FERRARI GENUINE CARBON FIBER SPLITTERS

**488
SPIDER**

The splitters fitted in the side air intakes are iconic elements that characterize the sporty lines of the car, as well as separate the air flows to ensure maximum engine performance, Ferrari Genuine offers a carbon fiber version designed by the Centro Stile Ferrari exclusively for the Accessories Catalog. The additional central fin and the high quality materials make these flow splitters guarantee a unique touch to the car, thus giving it a decisive and exclusive look.
