FERRARI GENUINE

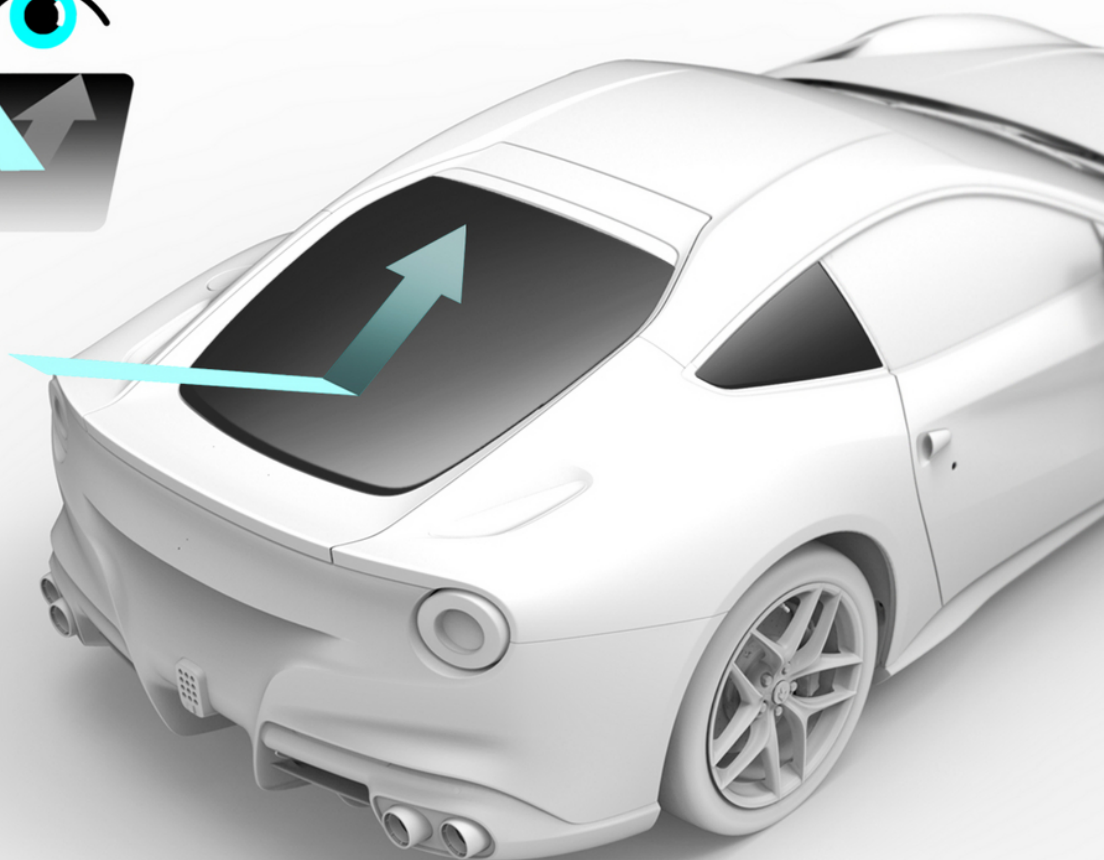

ORIGINAL ACCESSORIES

TINTED GLASS, REAR

TINTED GLASS

F12berlinetta

Ferrari Genuine offers its customers a privacy glass kit for the rear screen and rear side windows. The tinted glass protects the rear of the vehicle interior from prying eyes, and also contributes to keeping the passenger compartment cooler.

The specially defined tint color of the kit reduces the amount of sunlight reaching the interior of the car, preventing it from becoming uncomfortably hot.
