**ELECTRO-CHROMIC MIRRORS, EXTERIOR**

## ELECTRO-CHROMIC MIRRORS

**Ferrari**  
*California*

The electrochromic mirrors effectively reduce reflected glare for the driver. This mirror uses special electrochromic technology to darken quickly and automatically in response to the brightness of the light striking it.

Electrochromic versions are available for both the interior and exterior rear view mirrors, and does not affect the mirror position memory and powered folding mirror functions on vehicles with these features.
