**ANTI-STONE CHIPPING PROTECTIVE FILM, FRONT
BUMPER**

ANTI-STONE CHIPPING PROTECTIVE FILM

**458
SPECIALE**

To protect the bodywork from marks, chips and scratches caused by gravel picked up from the road, a kit may be ordered consisting of extremely tough transparent protective films tailored specifically for the forms of the car.

Intended for application in the most exposed areas of the bodywork subject to greatest risk of damage, such as wheel arches and air intakes, these films can also be ordered as individual kits.
