ORIGINAL ACCESSORIES

CALIFORNIA T SPECIALE HANDLING

CALIFORNIA T SPECIALE HANDLING

The Speciale Handling kit lets customers discover a whole new sports performance for their car.

The kit replaces specific components such as the exhaust system, the suspension springs and special software.

This pack improves the behaviour of the car and accentuates its sportier side, making it more responsive than ever with even more focused performance.
The result is a car that expresses the pure essence of Ferrari in terms of sports performance and dynamism. The Speciale Handling kit combines driving pleasure with superlative performance for a truly unique experience.

The kit can only be installed on vehicles that are already equipped with Magnaride suspension.
