

F12berlinetta

FERRARI GENUINE

ORIGINAL ACCESSORIES

TRACK CAMERAS

TRACK CAMERAS

F12berlinetta

The track cameras are an optional accessory orderable in addition to the Ferrari telemetry kit. When installed in the passenger compartment, and positioned to film both the circuit and the driver zone, these cameras let drivers record their driving experience and review their performance afterwards in high definition video and analyse driving line, braking points and driving technique.

Compatible with the Ferrari Telemetry App for data analysis.
