**MYFERRARI CONNECT**

## MYFERRARI CONNECT

Ferrari  
**296 GTS**

MyFerrari Connect is a proposal for advanced connection services, thanks to which you will always have the status of your vehicle under control via your mobile devices.

The system allows you to check the key information of your vehicle at any time, sharing it with your Dealer in order to better plan any service in the Dealer workshop.

The system also allows you to share the adventures you will experience aboard your Ferrari with friends and family in complete simplicity and safety, being able to share them both on your favorite social networks.
