20" SPORT STYLE WHEELS

Ferrari
California

The 20" light alloy wheels enhance the vehicle's sporty character. The diameter enables tyres with a smaller shoulder to be fitted which further enhance the vehicle's dynamic lines. The distinctive design, with five spokes split into twin branches, is a style feature that recalls GT championship wheels. The diamond finish gives the wheel a special sheen, shows off its shapes and forms, and gives the vehicle an extra touch of personality.
