

SF90 **SPIDER**

FERRARI GENUINE

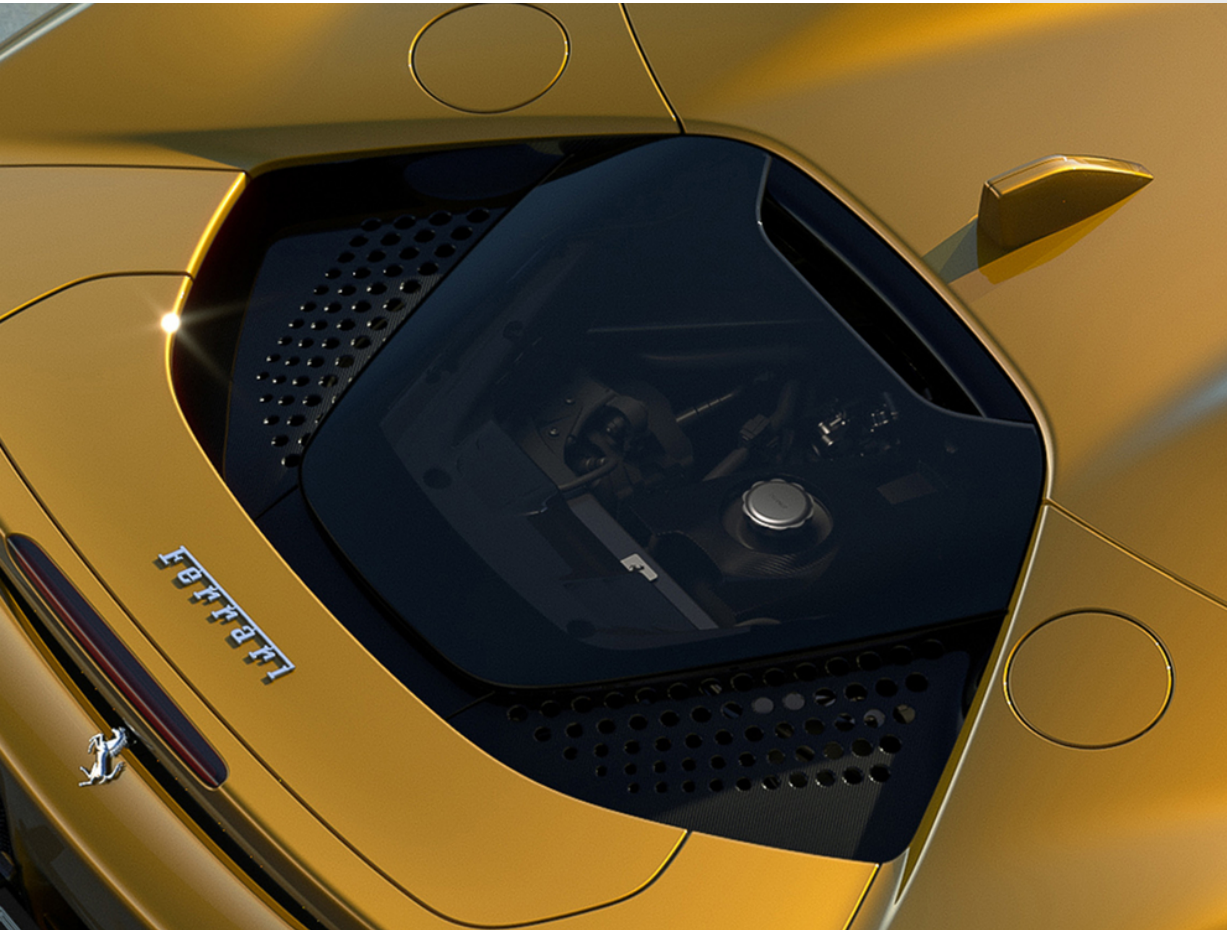

ORIGINAL ACCESSORIES

CARBON FIBRE BONNET TRIMS

CARBON FIBRE BONNET TRIMS

SF90 SPIDER

The covers, installed in the end area of the rear window ensure, through their particular shape, the correct air flow of the engine compartment.

The version made of visible carbon fiber, thanks to its peculiar characteristics, help to making this element even more characteristic, guaranteeing the same performance and giving a much more gritty look to the rear part of the car.
